Extension Rings

Aluminum extension rings are used to raise the height of manhole covers on the roadways when paving is being done over top of existing pavement. The new pavement increases the height of the road surface, and the extension ring keeps the manhole cover flush with the road. Lightweight cast aluminum. Available in a variety of sizes to fit your needs (standard sizes are listed below).

32 1/2" Diameter x 2" Rise
M1070132

24" Diameter x 1" Rise
M1073124

24" Diameter x 1.5" Rise
M1075124

24" Diameter x 2" Rise
M1079124

24" Diameter x 2" Rise Heavy Duty
M1079124HD

27" Diameter x 2" Rise Heavy Duty
M1079127HD
