PIPER

High-Density Stack Chair

stackable convenience | reliable toughness

Stackable Convenience

Piper is ideal for areas that require high-density, movable seating. Chairs can be set up, re-arranged, stacked, moved, and stored – adding versatility to nearly any application. From 10 chairs in a break room to 100 in a cafeteria to 1,000 in a lecture hall or convention center, Piper chairs are the easy solution in any high-density seating environment.

Reliable Toughness

Set them up. Move them around. Stack them up. And, do it over and over again. Piper chairs are built to withstand vigorous use and still provide years of convenient, versatile seating. Piper is priced to accommodate high-volume seating needs and modest budgets.

Piper's integral handle in the seat back allows for easy lifting, moving and stacking. Piper's high back also provides exceptional comfort and promotes correct posture. The waterfall seat front supports circulation. The polypropylene seat comes in more than 15 colors.

- Seat and back are injection molded polypropylene
- Frame is 7/16" diameter steel wire (solid)
- Frames are semi-bright nickel chrome plating
- Ganging and non-ganging polycarbonate glides
- 19.25"W X 21.25"D X 31.5"H
- Seat: 18"W X 17.5"D x 17.5"H
- Stacks 10-high on floor
- Stacks 38-high on dolly
